

FACEBOOK MESSAGE

Dear Friends,

This is regarding a “Digital Device Donation Challenge” for the government pre-schools (anganwadis) of the Telangana State in India. I am donating a digital device (audio-visual learning aid) for a preschool/anganwadi. The Digital device helps the children from under-privileged families to have better learning, socio-emotional, cognitive and motor development.

One Digital device (Smart LED TV) and the setup costs Rs.19,750/-.

I nominate the following three friends of mine (1) ... (2) ... (3) ... to take the challenge forward!

I appeal to everyone to come forward and contribute to this noble mission. To donate the device, please visit - <https://givebackindia.in/DDDC.HTML>
